React.js Course: Professional State Management March 2023

Leonardo Murialdo Institute

Professional and Personal Computer Technician

High School Grade Point Average: 9.21

2015-2021

PROFESSIONAL OBJECTIVE

I am seeking opportunities as a frontend developer in challenging and ambitious projects.

I am highly disciplined and constantly seeking opportunities to improve my skills and knowledge. In the projects I work on, I always strive to explore new technologies as it excites me and opens up a vast range of applications I can achieve.

Furthermore, I am passionate about collaborating with other professionals and working in a team to achieve common goals, as I did while working in Cohort 11 of No Country (a startup dedicated to bringing together junior developers without experience to work on a real project).
.

PROJECTS

GitHub
- Translator app (using Typescript and OpenAI API).
- Agency Posts (OpenAI API and Pexels API).
- Portfolio with chatbot (React.js and co:here API).
- Mercado Libre clone (React.js and ChakraUI).
